

OWL Community Library

Your source for **FREE** online language tests

*The proven solution
for creating,
administering
and rating oral,
aural, reading, and
writing online tests*

Yes, **FREE** online language tests

OWL Testing Software customers form a network of schools and language professionals who freely share language test content with each other. We call this free test content the “OWL Community Library”.

Today, that library has language skills tests for many of the most popular languages—including Spanish, French, German, Japanese & Italian, with more being added all the time.

These aren't just ANY tests!

These are **FREE Simulated Oral Proficiency Interview (SOPI) type tests** that your faculty can start using immediately. And, unlike a library book, you never have to return these tests. They are **yours to keep and customize** to your curriculum and requirements using OWL Testing Software.

Even the most technology-shy instructor will find OWL Testing Software **easy to use**. Intuitive software combined with free tests. That's a combination that will actually be used by faculty, while enhancing the teaching and learning experience for everyone.

So whether it's **placement tests, classroom quizzes, practice activities, study abroad, ESL/EFL programs, or high-stakes exams**, OWL Testing Software makes online testing and assessing for **reading, writing, listening**, and—most importantly—**speaking** skills less labor-intensive and far **more effective than any other testing software** on the market today.

For more information or to schedule a **FREE** demo, **contact the OWL sales team at Sales@OWLTS.com or call 877.695.3395 or 412.573.6143**
