

OWL Test Conversion Service

Fast, easy, and affordable migration of your existing testing and teaching materials

Implementing OWL has never been easier!

Are you ready to provide your students, employees, or clients **the best experience in language learning**? Then now is the time to **upgrade** your existing paper-based or other technology-based tests and teaching materials to OWL's **Web-based** platform.

OWL Testing Software offers a **dynamic experience** that simply cannot be created elsewhere. OWL's online system affords **superior flexibility**—in both test content and scheduling—for instructor and learner alike—in **any language, for any language**.

What's more, conversion and migration of your existing materials is **headache-free**. Simply let the experts at OWL Testing Software do the work for you!

New QTI Import Tool

OWL's built-in QTI (Question and Test Interoperability) Import Tool allows for **effortless migration of your previously created test content** to OWL from many other common learning applications.

Supplement your content with the OWL Community Library

OWL's Test Conversion Service not only allows you to **repurpose your favorite tried and proven legacy test content**, but also **add new, validated SOPI-type content** from the OWL Community Library—**FREE of charge**.

No other testing solution offers such a powerful combination!

To see if you qualify for a FREE test conversion, contact:
Greg Russak at GRussak@owlts.com or
